

REMARKS

Favorable reconsideration of this application, in light of the preceding amendments and following remarks, is respectfully requested.

Claims 1 and 5-12 are pending in this application. Claim 1 has been amended and claims 2-4 and 13-18 have been cancelled. Claims 1 and 5 are the independent claims.

The Examiner has indicated that the Restriction Requirement issued on February 21, 2007 has been withdrawn, and claims 1-18 have been examined.

Applicants respectfully note that the present action does not indicate that the claim to foreign priority under 35 U.S.C. §119 has been acknowledged or that certified copies of all priority documents have been received by the U.S.P.T.O, and therefore, Applicants respectfully request the Examiner's indication thereof.

Applicants also respectfully note that the present action does not indicate that the drawings have been accepted by the Examiner. Applicants respectfully request that the Examiner's next communication include an indication as to the acceptability of the filed drawings or as to any perceived deficiencies so that the Applicants may have a full and fair opportunity to submit appropriate amendments and/or corrections to the drawings.

Allowed Claims

Applicants appreciate the Examiner's indication that claims 5-9 are allowed.

Rejections under 35 U.S.C. § 102

Son

Claims 1-4, 10-12 and 13-18 stand rejected under 35 U.S.C. § 102(a) as being anticipated by Korean Application No. 2002-0053412 to Son. Applicants respectfully traverse this rejection for the reasons detailed below.

Claims 2-4 and 13-18 have been cancelled, and therefore, the rejection of these claims is now moot.

Applicants respectfully submit that the Examiner has failed to point out each and every element of independent claim 1 disclosed by Son. Therefore, Applicants request that the next Office Action be made non-final.

Applicants cannot find (nor does the Examiner point out) where Son discloses that the EMC corresponding to the upper gate and the lower gate from the encapsulated PCB module is mechanically removed using a jig as recited in amended claim 1.

The Applicants, therefore, respectfully request that the rejection to Claim 1 under 35 U.S.C. § 102(a) be withdrawn.

Claims 10-12, dependent on independent claim 1, are patentable for the reasons stated above with respect to claim 1 as well as for their own merits.

Accordingly, Applicants respectfully request reconsideration and withdrawal of the rejection to independent claim 1 and all claims dependent thereon.

CONCLUSION

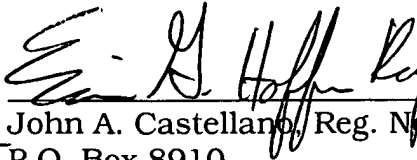

In view of the above remarks and amendments, the Applicants respectfully submit that each of the pending objections and rejections has been addressed and overcome, placing the present application in condition for allowance. A notice to that effect is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to contact the undersigned.

Should there be any outstanding matters that need to be resolved in the present application, the Examiner is respectfully requested to contact Erin G. Hoffman, Reg. No. 57,752, at the telephone number of the undersigned below.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 08-0750 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17; particularly, extension of time fees.

Respectfully submitted,
